Music Safeguards the Home!

In this dizzy century thinking people have realized that the home is losing its attractiveness  
for the younger folk. The attendance at dance halls, shallow plays, and insane movies are proof of  
the fact.

The atmosphere of HOMELINESS that is lacking in the home can be supplied by a PLAYER-  
PIANO—the source of pleasure available to every home. It provides a means of entertainment for  
young and old alike—and at an expense spread out over a period of time so as not to be a terrible expense  
at any one time.

The HALLET-DAVIS Co. with tremendous resources, can finance your purchase by liberal  
credit terms.

**"Musical  
Wonder"**

Don't fail to get a demonstration of this machine  
before you buy a phonograph, or you will regret it.  
There's nothing like it in the musical world. "Sells at  
sight."

In appearance it is as you see it here pictured, a  
regally beautiful library lamp—massive, rich, hand-  
some.

Lift the upper half of the shade and a perfect pho-  
nograph is exposed. The turntable, record, needle,  
etc., are cunningly illuminated by a tiny electric lamp,  
making it easy to play.

Motor is electrically driven, so that the tiresome  
round of wind, wind, wind is entirely done away with.  
The base is of solid cast bell bronze, heavily plated  
with real gold. Shade is of fine silk, richly ornamented  
with gold lace, gold tassels and silk or chenille fringe.  
Two incandescent bulbs supply the illumination.

The phonograph instrument itself is a wonder of  
perfection, with unsurpassed tonal qualities.

More Men at Studebaker's Means  
More Home-Owners Using  
**"The Thatcher Furnace"**

The proposed extension of the Studebaker factory means a big boom to  
local building. And wherever you find a real HOME being constructed you  
find the THATCHER FURNACE. There's a big reason behind the sale of  
all the THATCHER FURNACES in South Bend. Investigate for yourself  
and then buy.
